

I. Personal Detail

Doan Duc NGUYEN, PhD

Leader of research group on animal-derived products

Vietnam National University of Agriculture

Gia Lam, Hanoi, Vietnam

Phone: (+84) 898981575

Email : nd.doan@vnua.edu.vn

nguyen.ducdoan@yahoo.com

II. Qualifications

▪ 2011-2015

Doctor of Philosophy in Food Science and Technology. Curtin University, Australia

- PhD thesis title: Effect of yoghurt processing on beta-casomorphin 5 and beta-casomorphin 7 concentrations using novel liquid chromatography-mass spectrometry methods

▪ 2003-2005

Master of Science in Food Science and Technology, Ghent University, Belgium

- Thesis title: Effect of calcium on coalescence stability of caseinate-stabilised emulsions

▪ 1994-1998

Bachelor of Engineering in Agricultural Products Processing and Storage,
Vietnam National University of Agriculture, Vietnam

- Thesis title: Investigation of cow milk compositions in Northern provinces, Vietnam

III. Awards

- 2019 VNUA Science and Technology Awards: high quality peer-reviewed papers.
- 2018 VNUA Science and Technology Awards: High quality peer-reviewed papers, book chapter and Grant
- 2017 VNUA Publication Awards: High quality peer-reviewed papers
- 2015 Curtin University Faculty Publication Awards: Highest IF paper in Food Science and Nutrition (Australia)
- 2013 Curtin University Faculty Publication Awards: Highest IF paper in Nutrition & Dietetics (Australia)
- 2011 Curtin University-Vietnamese Government award scholarships for PhD degree
- 2003 Flemish Interuniversity Council award scholarships for master degree (Belgian Universities)

IV. Professional Experience

- 5/2001-present

Lecturer, Vietnam National University of Agriculture, Hanoi, Vietnam

- 7/2019-6/2020

Adjunct Scientist, Curtin University, Australia

- 5/2019-6/2019

Visiting Researcher, Curtin University, Australia

- **9/2018-12/2018**

Visiting Researcher, Curtin University, Australia

- **7/2015-2/2016**

Research Assistant, Curtin University, Australia

- **8-12/2013**

Research Assistant, Curtin University, Australia

- **2006-2011 and 2016-present**

A member of the technical committee for Vietnam National Institute of Standard and Quality for the development of food analytical methods.

- **1/1999-4/2001**

Laboratory Technician, Department of Quality Assurance, Vietnam-France Feed Company, Hanoi, Vietnam

- **Teaching areas**

Undergraduate students

Milk Science and Technology (Lecture in Vietnamese)

Meat Science and Technology (Lecture in Vietnamese)

Postgraduate students

Food commodities (Lecture in English, Vietnamese)

Preservation of animal-based products (Lecture in English, Vietnamese)

- **Research areas**

Evaluation of cow milk quality in Vietnam

Milk, Functional milk products, Opioid peptides

Soy milk-based products: soymilk, soy yoghurt

Cereal grains: Millet, Sorghum...

V. Research Projects

1. Effect of heat treatment on concentration of beta casomorphins in A1A1 and A2A2 milk and in their digests following *in vitro* simulated-gastro intestinal digestion, funded by National Foundation for Science and Technology Development, Viet Nam (NAFOSTED) (2017-2020). **Principal Investigator**

2. Analysis of composition of milk collected from Ha Nam, Moc Chau - Son La, Don Duong – Lam Dong, Cu Chi – HCM city (Project: Improvement of health, nutrition and milk producibility of dairy cow herds in Viet Nam, funded by VietNam-Australia, 2017). **Principal Analyst**

3. Production of CLA from yoghurt cultures, funded by Hanoi University of Agriculture (2010). **Principal Investigator**

4. Improvement of the flavour of soybean yoghurt, funded by Hanoi University of Agriculture (2010). **Principal Investigator**

5. Application of VietGAP (Vietnamese Good Agricultural Practice) for producing safe Thieu Litchi in Luc Ngan, Bac Giang, funded Ministry of Education and Training and Bac Giang Province, Vietnam (2008-2009). **Co-investigator**

6. Effect of processing conditions on the quality of whey-supplemented soy milk yoghurt, funded by Ministry of Education and Training, Vietnam (2008-

2009). **Principal Investigator**

7. Research on technical procedure for intensive cultivation of millet (*Setaria Italica* Beauv. and *Ereusine Coracana* Gaernt.) for functional food production, funded by Ministry of Education and Training, Vietnam (2007-2008). **Co-Investigator**

8. Diversity of production derived from cassava and sweet potato, funded by Ministry of Education and Training, Vietnam (2006-2007). **Co-Investigator**

9. Production of soy milk yoghurt, funded by Hanoi University of Agriculture (2007). **Principal Investigator**

10. Effect of Modified Atmosphere Packaging (MAP) on the growth of bacteria and change in color of fresh pork, funded by Hanoi University of Agriculture (2006). **Principal Investigator**

VI. Publications

Books (book chapter)

1. **Doan D. Nguyen**, Franceso Busetti and Vicky A. Solah (2017). “Beta casomorphins in yoghurt” *Yogurt in Health and Disease Prevention* - Ed. Nagendra P. Shah. Academic Press (Elsevier). United Kingdom

Research articles

Simurabiye Jean Baptiste, Thi Hoang Yen Le, Thi Kim Van Le, Duy Nhan Vu, **Duc Doan Nguyen**. Anti-cancer Immunomodulatory Activities of Bioactive Compounds from Panax Genus. *Submitted to Food Review International* (Corresponding author).

Nguyen Duc Doan and Do Thị Ha (2020). The effect of heat treatment of

germinated soybean on gamma-aminobutyric acid, phytic acid and physicochemical properties of soymilk yoghurt *Vietnam Journal of Agricultural Sciences* 18(5), 367-377.

Nguyen Duc Doan and Đinh Thị Tuoi (2020). The change in gamma-aminobutyric acid, phytic acid and other compositions in soybean during germination. *Vietnam Journal of Agricultural Sciences* 18(5), 444-453.

Conference Articles

Pham Van Cuong, Hoang Viet Cuong, **Nguyen Duc Doan** (2009). Effect of environmental factors on biological characters and grain quality of Vietnamese

foxtail millet (*Setaria italica* L.) (Abstract). *Journal of ISSAAS* 15(1), 170-230

VII. International and National Conferences

1. **D.D Nguyen.** Hướng tiếp cận mới cho ngành công nghiệp sữa. Hội thảo Nông nghiệp công nghệ cao-các vấn đề và giải pháp 2018 (New approach for dairy industry in Viet Nam. High-tech Agriculture in Viet Nam-Problems and Resolutions), VNUA-2018.
2. **D.D. Nguyen.** Quantification of beta casomorphins in dairy products. Nutrition, food quality and public health. Vietnam National Association of Nutrition 2017, Hanoi, Vietnam (Oral Presentation in Vietnamese)
3. **D.D. Nguyen,** F. Buseti, S. Johnson and V. Solah. Degradation of opioid peptides and identification of degradation products during yoghurt processing using LC-HRMS. International VBFoodNet 2017 Conference, Ho Chi Minh City, Vietnam (Oral presentation)
4. **D.D Nguyen,** F. Buseti, S. Johnson and V. Solah. Hydrolysis of beta casomorphin 5/7 by *Lactobacillus delbrueckii* ssp. *bulgaricus* and *Streptococcus thermophilus* during yoghurt processing. ISSAAS 2016 International Congress and General Meeting, Hanoi, Vietnam. (Oral presentation)
5. **D.D Nguyen,** F. Buseti, S. Johnson and V. Solah. Effect of fermentation and storage on beta casomorphin 5 and beta casomorphin 7 in yoghurt. The 2nd International Dairy Federal Symposium on Microstructure of Dairy Products and 5th International Dairy Federal Symposium on Science and Technology of Fermented Milk, March 2014, in Melbourne, Australia. (Poster presentation)
6. **D.D Nguyen,** F. Buseti, S. Johnson and V. Solah. Quantification of beta casomorphin 5 and beta casomorphin 7 using SPE-LC-MS/MS. Mark Lewis

conference 2013, Curtin University, Australia (3-minute oral presentation and poster)

7. **D.D.Nguyen** and V.C.Pham. Compositions in millet in North-West Provinces, Vietnam. The 2nd international workshop on science and technology for sustainable development in Great Sub-Mekong region, September 2008, Hanoi, Vietnam (Oral presentation)

VIII. Principal Supervisor

1. MSc MAI Thi Khuyen (supervised in English): Completed in 2018

Thesis title: “Identification and quantification of beta-casomorphins in cow milk derived from different cow breeds in Vietnam”.

2. MSc PHAM Thi Hoa (supervised in English): Completed in 2018

Thesis title: “The current status of microbial contamination in raw pork collected from some slaughterhouses and markets located in Vinh city, Nghe an province”

3. MSc NGUYEN Xuan Hung (supervised in Vietnamese): Completed in 2019

Thesis title: “Nghiên cứu ảnh hưởng của một số yếu tố công nghệ đến chất lượng của sữa chua đậu tương nảy mầm (Effect of process conditions on soymilk yoghurt prepared from germinated soybean)”.

4. MSc SIMURABIYE Jean Baptiste (supervised in English): on goings

Thesis title: “Study on metabolites of Panax Notoginseng by medicinal mushrooms and their antioxidant and anticancer activities”.
